NEW!

...for Examination, Treatment - height adjustable

New:

Optimal cleaning and disinfecting
because of Dewert-hygiene-equipment:

- Cover of hinges in the same color leatherette
- Underside of head part covered with color identical leatherette

**Picture shows Mod. 2030-00XL/H
with special accessories:**

- Mod. 1180N (Movable on castors with central lock)
- 2x Mod. 1080 (Side guards lateral lowerable)

...for Examination, Treatment - height adjustable

Model 2030-...XL and 2035...XL

Please select between 2 possibilities of height adjustment:

Possibility 1: Manual foot operated height adjustment by hydraulic lift.

Pedals for foot-controlled height positioning are both sides the table.

Possibility 2: Height adjustment by electric motor, controlled by 1 foot switch (option hand switch)

Time of electric adjustment from min. to max: 22 sec.

Basic equipment:

- Lying surface 2-parts:
 - Elegant looking head part: Length 750 mm,
 - Head part stepless upwards +70° and downwards -20° adjustable by gas spring (The adjustment of the head part is independent of table height)
 - Foot part fixed, length: 1.200 mm
 - In basic version the table is fixed (not mobile) with leveling feet to compensate uneven floors. Available as option: Various possibilities for mobility
 - Upholstery base: Multiple glued, high-strength laminated wood panel (no particle board = danger of breaking if edges are burdened)
 - Thickness of upholstery: 60 mm (Padding made of 2 different foam types, both are pure foam in volume weight of 42 and 75. Each layer comprises a homogeneous, closed cellular structure for long life padding. Please note: This is no composite foam of glue bonded residual flakes!)
 - In basic version the table has a solid padding. Available as option: Various possibilities for soft and elastic upholstery.
- Upholstery covering: Please choose between
 - Skai®Pandoria Plus and Stamskin®Top
 - Optionally color of underpart of the table: Please choose between: White = RAL 9010 (-00), Silver = RAL 9006 or RAL 9007 (-04).
- Optimal cleaning and disinfecting because of Dewert-hygiene-equipment

Dimensions: Length: Lying surface: 1.950 mm. Max. safe workload : 250 kg

Model	Width	Height adjustment	Color of underpart
2030-00XL/H	700 mm	By hydraulic lift: 500 - 920 mm	white
2030-04XL/H	700 mm	By hydraulic lift: 500 - 920 mm	silver
